

ROHIT JHA D

Data Analyst | Business Intelligence & SQL Specialist

Chennai, India | +91-6382074117 | rjha13b@gmail.com | linkedin.com/in/rohit-jha-d | github.com/Rohit-Jha-D

PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence Specialist with enterprise experience at Hindustan Petroleum Corporation Limited (HPCL) and analytics background at C-DAC. Expertise in SQL (advanced joins, CTEs, window functions), Power BI (DAX, dimensional modeling), Tableau, Advanced Excel, and Python for automated ETL pipelines and exploratory data analysis (EDA). Demonstrated track record monitoring INR 90+ Crore in receivables, engineering executive dashboards, evaluating market share across 1,400+ stations, and cutting recurring reporting turnaround by 35%. Certified Google Data Analytics professional.

TECHNICAL SKILLS

- **Business Intelligence & Reporting:** Power BI (DAX, Power Query, Data Modeling), Tableau, TIBCO Spotfire, Advanced Excel (VBA, Pivot Tables, XLOOKUP), KPI Dashboards
- **SQL & Relational Databases:** SQL (PostgreSQL, MySQL - Complex Joins, CTEs, Window Functions, Views, Aggregations, Stored Procedures), Relational Modeling
- **Data Wrangling & Scripting:** Python (Pandas, NumPy, Matplotlib, Seaborn), R, Exploratory Data Analysis (EDA), Data Cleansing, ETL Pipelines, Data Validation
- **Data Warehousing & Schemas:** Star Schema, Snowflake Schema, Fact & Dimension Modeling, Data Normalization, Data Quality Assurance
- **Business Systems & Workflow:** SAP ERP, CRIS Logistics, Git, GitHub, Docker (Basics), Streamlit, JIRA, Business KPI Formulation

PROFESSIONAL EXPERIENCE

Hindustan Petroleum Corporation Limited (HPCL)

Trichy, India | Apr 2024 – Mar 2025

Data Analyst Trainee – MIS & Business Analytics (NATS Graduate Apprenticeship)

- Engineered robust ETL data pipelines combining SAP ERP, TIBCO Spotfire, and CRIS datasets using Python and SQL, automating daily ingestion and cleansing of supply chain records with 0% data discrepancy.
- Monitored INR 90+ Crore outstanding receivables across 450+ commercial accounts; conducted cohort aging analysis (DV >15 days) and prioritized high-risk collections to accelerate working-capital turnaround.
- Engineered interactive Power BI & SQL executive dashboards with dynamic drill-downs and DAX measures, slashing recurring weekly/monthly reporting turnaround time by 35% for regional leadership.
- Evaluated twice-daily fuel dryout logs and throughput figures across 1,400+ stations (HPCL, BPCL, IOCL) via EDA and market share modeling, identifying critical supply bottlenecks and optimizing delivery routes.
- Conducted regional MIS/IPR competitive benchmarking across 5 sales territories, uncovering sales trends that steered regional CNG infrastructure and retail fuel expansion plans.

Centre for Development of Advanced Computing (C-DAC)

Chennai, India | Jan 2023 – Jun 2023

Data Analytics Intern – Behavioral Data Modeling & Log Analysis

- Developed data parsing and aggregation pipelines in Python and Elasticsearch to process over 500,000+ transactional network events daily.
- Executed exploratory data analysis (EDA) and pattern clustering to identify behavioral anomalies and access deviations, reducing false positive alerts by 40%.
- Constructed analytical summary reports and visual KPI scorecards to translate complex event patterns into actionable operational intelligence for management.

KEY ANALYTICS PROJECTS

B2B Supply Chain & Financial Risk Intelligence Dashboard | Power BI, SQL, Python, DAX

- Architected a dimensional data model (Star Schema) integrating 100K+ transactional rows across sales, inventories, and customer accounts using SQL and Power Query.
- Engineered dynamic DAX measures for DSO (Days Sales Outstanding), run-out probability, and inventory velocity, providing leadership with immediate drill-down visibility.

Automotive Telemetry & Performance Analytics Platform | Python, Pandas, Scikit-learn, Flask

- Conducted end-to-end Exploratory Data Analysis (EDA), correlation matrices, and distribution analysis across multi-sensor engine telemetry variables.
- Built a regression predictive engine achieving an R^2 of 0.91 and created an interactive web interface for non-technical stakeholders to simulate operational vehicle metrics.

EDUCATION

Bachelor of Technology (B.Tech.) in Information Technology

Aug 2019 – Jul 2023

Anna University (Gojan School of Business and Technology), Chennai | CGPA: 8.42 / 10.0

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** – Coursera / Google (SQL, R, Tableau, Spreadsheets, Data Cleaning, Statistical Foundations)
- **Graduate Apprenticeship Training Completion Certificate (NATS)** – Ministry of Education, Govt. of India (HPCL Trichy)
